Subject: Invitation to the 6th Edition of the WORLD TRADE EXPO (WTE) 2025

H.E. Mohamed Salam Jameel A.,

We are pleased to invite your esteemed Consulate to the 6th Edition of the World Trade Expo (WTE), organized by MVIRDC World Trade Center Mumbai and All-India Association of Industries (AIAI) as our esteemed partner to showcase the trade and international opportunities of your country.

The World Trade Expo is an effective platform that brings together trade missions, businesses, policymakers, and industry leaders to explore opportunities in Trade, Manufacturing, Services, and Agro sectors, with a special focus on innovation technology in the era of sustainability.

The 2024 Edition was inaugurated by H.E. Mr. C P Radhakrishnan, Hon'ble Governor of Maharashtra, and witnessed an overwhelming response, with 5,000+ visitors and 26 countries participation, 14,000+ B2B and B2G meetings, participation from MSMEs, industry clusters, women entrepreneurs, and global trade representatives.

The Expo offers a unique opportunity for Consulates and Trade Missions to showcase trade, investment, tourism, and education opportunities in your country, engage with Indian businesses, investors, and policymakers, and promote bilateral trade by connecting with key stakeholders across industries.

As a valued participant, we are pleased to offer a complimentary fully furnished 'Country Pavilion' (6 sq. meters), which includes a table, two chairs, a plug point, two spotlights, and fascia branding and if you require additional pavilions, we are happy to provide the details.

Additionally, we invite you to present and highlight your country's trade and investment policies and encourage business collaboration. We also recommend inviting companies from your country that are already operating in India for exploring market potential.

We look forward to your participation in the World Trade Expo 2025 to strengthen international business relations and drive new collaborations.

Your presence would add immense value to the event.

Warm regards,

Priya Pansare
Director – Trade & Investment Promotion

MESSAGE

It is heartening to learn about the 5th edition of World Trade Expo – WTE at Mumbai. Heartiest greetings and congratulations to the organisers for this endeavour.

The vibrant city of Mumbai is an apt choice for hosting the Expo. In fact, the state of Maharashtra has been among the leading powerhouses of progress of the nation.

The presence of diplomats of several nations, entrepreneurs, exhibitors and students at the Expo will facilitate an exchange of insights about the latest global trends and best practices in trade, investment and tourism.

Today, India is the fastest growing major economy in the world. Our rapid emergence as the 5th largest economy within a period of 10 years reflects just one of the many dimensions of India's growth journey. With a focus on the future, we are taking rapid strides towards becoming the 3rd largest economy within a few years.

The speed and scale of this transformation has become possible due to the collective efforts of 140 crore people. Particularly, the contribution of industry, entrepreneurs and professionals from diverse spheres, many of whom are a part of this gathering at the Expo, is truly commendable and has been an asset.

It is particularly noteworthy that the theme at this year's Expo is 'Green energy and innovation'. We are living in an era in which no nation can plan its growth strategy without clean energy. Energy transition and sustainable development through innovation and new ideas, have become central to global policy discourse as well as India's growth story.

During the last decade, our solar energy capacity has increased 32 fold! India is the only G-20 nation to achieve non-fossil fuel targets set by the Paris Agreement, nine years ahead of schedule. We are working at different levels to realise the vision of transforming the green transition into a people's movement. In this context, one of our next targets is expanding renewable energy to 500 GW by 2030.

We are also working towards realizing the vision of trans-national, inter-connected green grids to enhance global energy security. Such an approach will help us meet climate goals, stimulate green investment and create green jobs.

As we march towards building a developed India by 2047, the 'culture of innovation and enterprise' becomes crucial. This will help India become a global hub of trade, supply chains, skills and innovation.

Best wishes to the All India Association of Industries and MVIRDC World Trade Center Mumbai for making the World Trade Expo 2024 a huge success.

(Narendra Modi)
