Smart Technology And Energy Saving Solutions

CHAPTER 1

INTRODUCTION

About Us

Our Company

FALCON established on 1990 by the founder Mr Ehab M Fahmy to penetrate the business of electronic industry, electronic control systems, energy saving technology, interior lighting for Vehicles, Passenger rolling stock, Metro passenger cars and recently add smart technology to our business.

Now Falcon becomes one of the pioneer companies on Energy Saving Technology, Smart control systems and LED interior lighting for Vehicles, Metro and Trains

To achieve that we have our R&D department and close cooperation with Innovation centers "I Technology USA", BEEC and IHUB ASU.

About Us

Basic Information

Company Name:

FALCON Electronic & Electrical Ind.

Type:

Private Investment Co. according Egyptian Investment law no.8/98

Chairman:

Dr. Ehab M. Fahmy

Capital paid:

6 million EGP (1.1 million USD as Ex rate on 2005)

Investment:

20 million Egyptian pounds

Licensed Activities:

Manufacturing of Electronic Ballast, Electronic Drivers, Electronic Power supply, Light fittings, Emergency lighting and LED lighting.

Factory Land:

1200 Sq meter

Factory Building:

1800 Sq meter / 3 Floors*600 Sq meter

Production Area:

1800 Sq meter

Administration Area:

200 Sq Meter

Services and Warehouse Area:

1000 Sq meter

Factory:

Plot 106 Industrial Zone,

 10th of Ramadan Bilbeis Road
Belbeis, Sharkia, Egypt

**Commercial Register ID:**

4649/ Inv.-Ismailia

Industrial License ID:

921020201006113

Tax/VAT ID:

525-257-780

Chamber of Engineering Industry member:

830

Our Team

Dr Ehab Fahmy

CHAIRMAN

- DBA-University of Cambridge
- Postgraduate electronic control studies– Switzerland
- Renewable & Energy saving expert- WEGCO-UNDP

Dr Asmaa Ehab

GENERAL MANAGER

- DBA – ASU
- MBA – AAST
- MBA-ERP – Fujitsu Japan
- Diploma of Innovation and Product Development – Nile University.

Eng. Ammar Ehab

SALES & TS G.MANAGER

- MBA – AAST
- MBA-ERP – Fujitsu Japan
- Diploma of Innovation and Product Development – Nile University
- BSC Electronic Engineering-SU

Islam Ehab

Factory Managment

- BSC – Business Administration
- Diploma – production planning
- Diploma – Metal industries

Man Power 100	R&D team 4	Engineers 8	Technicians 60
	Sales Staff 10	Administration staff 8	Workers 10

Our Manufacturing Capabilities

Design House

- Electronic
- PCB
- Metal molds

Test laboratory

- Electrical
- Spectrum
- Life Span

Metal Production Lines

- Molds preparing
- Metal Sheet punching
- Metal sectors cutting and welding

Acrylic line

Electronic Components Assembly line

LED tube Assembly line

3 Lines for Light fittings Assembly

Aging test chambers
