

任鸿斌 会长
中国国际贸易促进委员会

REN HONGBIN CHAIRMAN
CHINA COUNCIL FOR THE PROMOTION
OF INTERNATIONAL TRADE

Invitation Letter

H.E. Dr. ALI IBRAHIM AL-MALKI

I am glad to inform you that the China Council for the Promotion of International Trade (CCPIT) will host the 3rd China International Supply Chain Expo (CISCE) in Beijing from July 16 to 20, 2025.

The CISCE is the world's first national-level exhibition dedicated to supply chains. Guided by the principles of internationalization, market orientation, specialization, and green development, the CISCE serves as a platform for trade promotion, investment cooperation, innovation clustering, and knowledge exchange. Its mission is to foster better integration across the entire supply chain, connect businesses of all sizes, enhance collaboration among industry, academia, research institutions and users, and promote engagement between Chinese and foreign companies. By reinforcing international cooperation, the CISCE aims to strengthen the stability and seamless operation of the global industrial and supply chains.

The 2nd CISCE was successfully held in Beijing from November 26 to 30, 2024, marking another milestone in advancing international supply chain cooperation. Premier Li Qiang engaged in a dialogue with delegates and exhibitors ahead of the event. Vice President Han Zheng attended and addressed the opening ceremony. Vice Premier He Lifeng met with foreign business delegations attending the expo. The event brought together 620 enterprises and institutions from 69 countries and regions, along with over 400 upstream and downstream industry partners. It welcomed more than 200,000 visitors and participants, facilitated

cooperative partnerships between exhibitors and 37,000 suppliers and connected exhibitors with 18,000 key clients. Furthermore, 69 thematic activities and over 370 matchmaking sessions were hosted, achieving more than 210 cooperation agreements worth over 20 billion U.S. dollars.

With the theme “*Connecting the World for a Shared Future*”, the 3rd CISCE will continue to feature 6 chains—advanced manufacturing, digital technology, smart vehicles, clean energy, healthy life and green agriculture—along with a supply chain service exhibition area. Vertically, the expo will showcase cutting-edge concepts, products and technologies across the entire industrial chain; horizontally, it will highlight supporting services including financial insurance, logistics, transportation, business consulting and legal services. In addition, there will be an opening ceremony and a series of events including business dialogues, outcomes releases, industry seminars and matchmaking meetings.

I warmly invite the League of Arab States to set up a booth in collaboration with relevant institutions, chambers of commerce and enterprises to demonstrate your industrial supply chain cooperation with China, introduce your investment policies and business environment, showcase representative local products, culture, and tourism, and display the products, technologies, and services of your enterprises. Let's work hand in hand for the stability and resilience of global industrial and supply chains, and inject fresh momentum into cross-border economic cooperation and innovative development.

I look forward to your presence in the 3rd CISCE.
