# Products

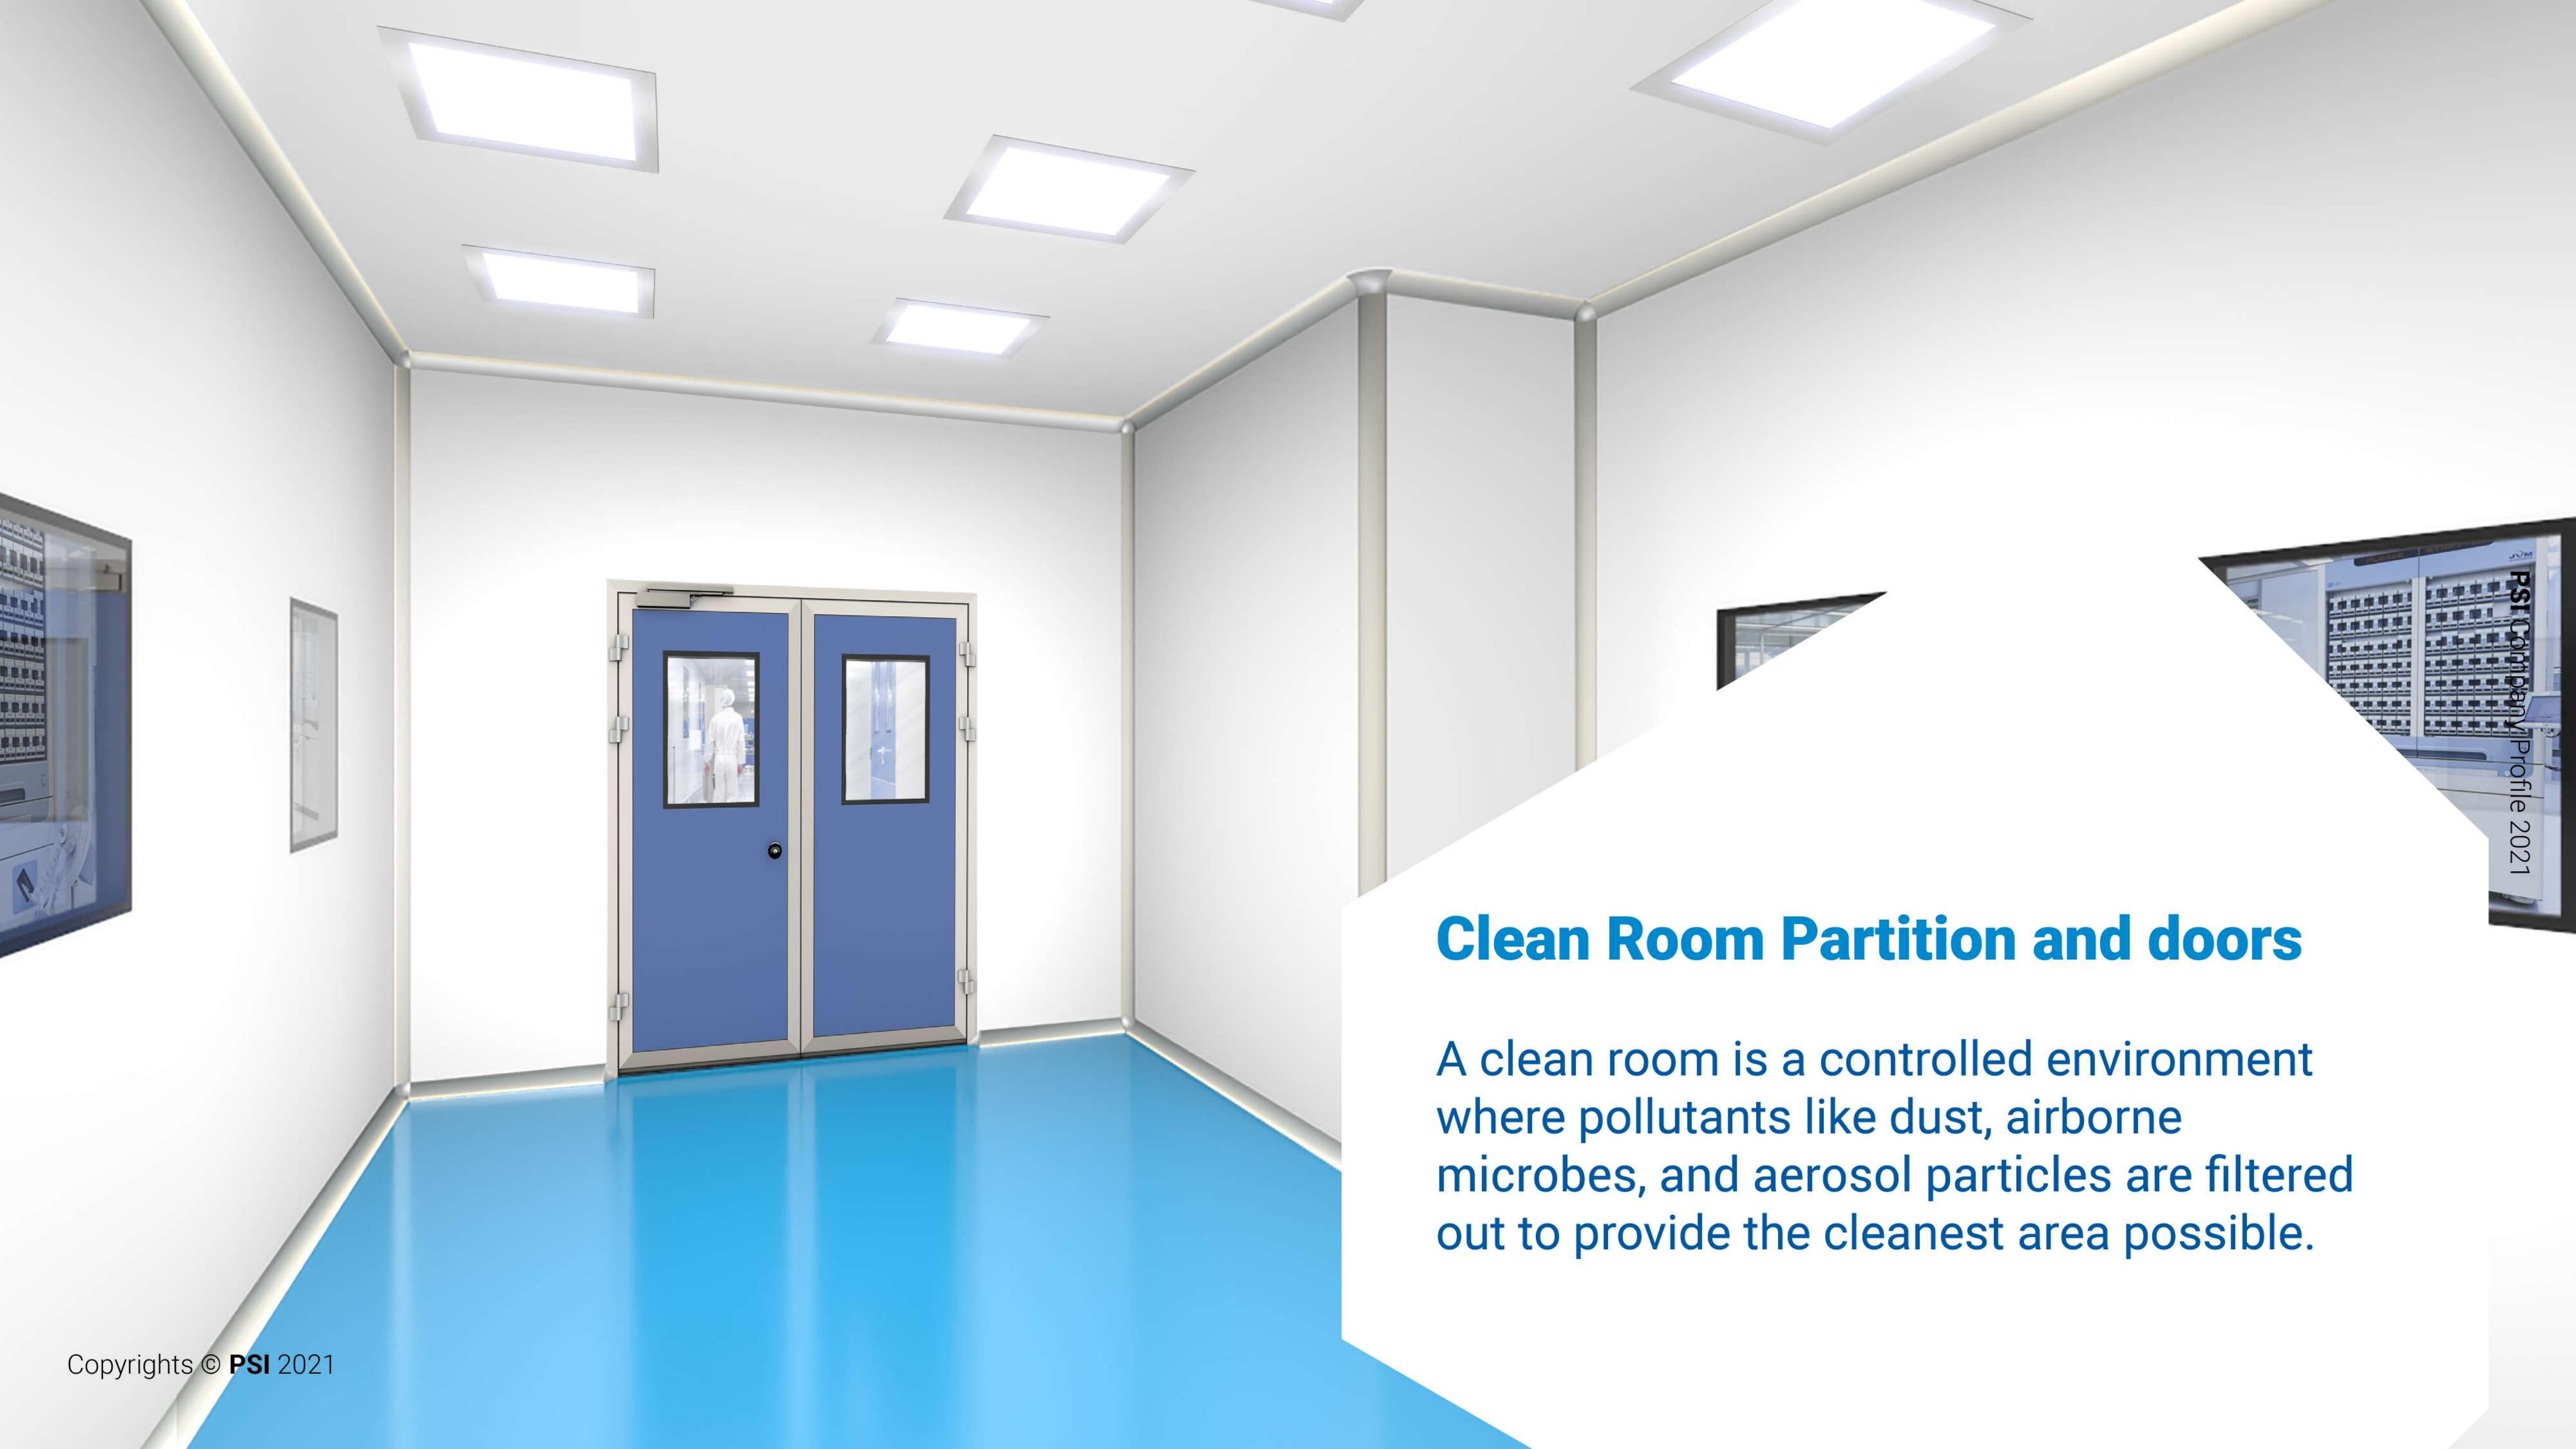

## Modular Cold Rooms

We design, manufacture, Supply and install high-quality temperature-controlled modular cold rooms & freezer rooms. Whatever the requirement, from food and laboratories, we offer a cost-effective and practical solution tailored to individual customer needs.

## Cold Storage

The walk-in cold/freezer room is a customized product meeting the demands in Food and beverage products, agriculture, medical service, scientific research, biological and chemical industries, etc.

## Clean Room Partition and doors

A clean room is a controlled environment where pollutants like dust, airborne microbes, and aerosol particles are filtered out to provide the cleanest area possible.

## Car Boxes

A car Box is a fantastic storage solution that could transform how you keep perishable items such as milk, meat, and vegetables. This all depends on the types of food you serve, their shelf life, and how regular your food ordering and turnover are.

## **Sandwich panels**

Sandwich panels are an example of a sandwich structured composite: the strength and lightness of this technology make it popular and widespread. Its versatility means that the panels have many applications and come in many forms.

# Warranty & After Sale Service

After sale service is recognized by its accuracy and efficiency to maintain a smooth and easy handling of any challenge. prepared to fulfill clients needs & requirements.
