سعادة رئيس غرفة تجارة الأردن

الموضوع: شركة ميماتك للصناعات الطبية المصرية

أرجو أن أرفق لسعادتكم نسخة من كتاب سعادة المستشار الإقتصادي في القاهرة رقم ع ث/١/١٣٩١ تاريخ ٢٠٢٣/١٢/١٧ ومرفقه نسخة من الكتاب الوارد للسفارة من شركة MEMATECH FOR MEDICAL INDUSTRIES المؤرخ في ٢٠٢٣/١٢/١٧ وهي شركة مصرية تجارية تعمل في مجال تصنيع وتوزيع الكابلات الطبية وأجهزة ومستلزمات التخدير التي تخدم الرعاية الصحية المحلية والدولية المتضمن طلب الشركة تزويدها بتفاصيل حول الشركات الطبية التجارية العاملة في المملكة بهدف توسيع نشاطها وتصدير منتجاتها إلى الأسواق الإفريقية والشرق أوسطية، كما هو مبين تفصيلاً بالمرفقات.

راجياً سعادتكم التكرم بالإيعاز لمن يلزم لتزويدنا بالمطلوب حتى نتمكن من الإجابة.

وتفضلوا بقبول فائق الاحترام،،،

يوسف محمود الشمالي
وزير الصناعة والتجارة والتموين

عطوفة أمين عام وزارة الصناعة والتجارة والتموين الأكرم

تحية طيبة وبعد،،،

أرفق لاطلاع عطوفتكم نسخة من البريد الالكتروني الوارد للسفارة من شركة
MEMATECH medical Cables and Sensors والمؤرخ في 2023/12/17.

وهي شركة تأسست عام 2010 وتعمل في مجال تصنيع وتوزيع الكابلات الطبية وأجهزة
ومستلزمات التخدير التي تخدم الرعاية الصحية المحلية والدولية، وتتطلع الشركة الى تصدير منتجاتها
الطبية الى الاسواق الإفريقية والشرق اوسطية من اجل توسيع انشطتها ، مرفق وثائق عن الشركة -
وتسجيل الشركة.

للتكرم عطوفتكم بالاطلاع والايجاز لتزويدنا بتفاصيل الشركات الطبية التجارية حتى تتمكن
من الرد على الشركة.

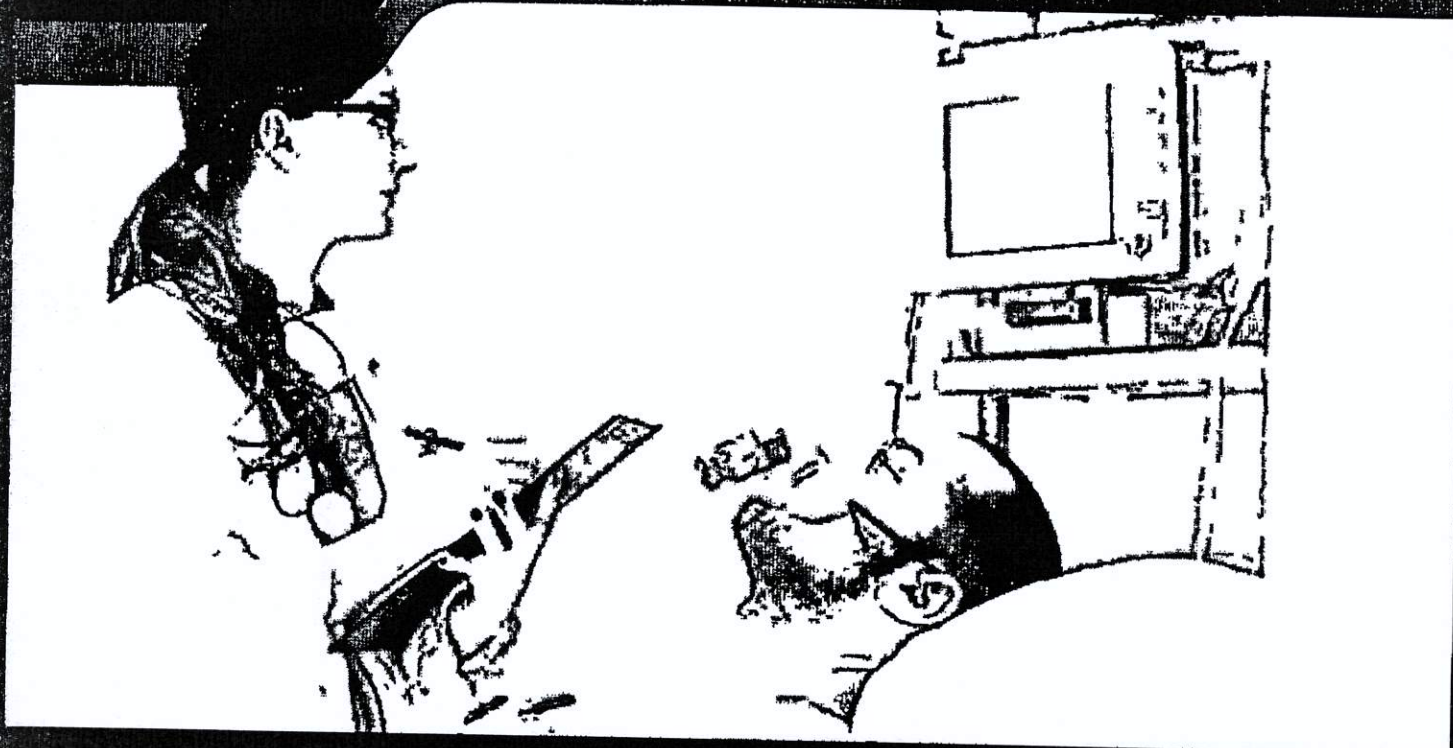

وتفضلوا بقبول فائق الاحترام،،،

المستشار الاقتصادي

مهند غشل

About MemaTech

MemaTech Company has been established since 2010; it is specialized in importing and Manufacturing of Medical cables, sensors and anaesthesia supplies, serving healthcare domestic and international market. MemaTech attains availability of high quality products through innovative and reliable Team.

Our Vision

Providing the best reliable Medical Products empowering healthcare sector to rescue more lives.

Our Mission

Serving ICU patients get highly accurate diagnosis by manufacturing of medical cables, sensors and anesthesia supplies with high quality so every doctor can get accurate indications for patient's case.

Slogan "Quality Comes First "

Our Value

MemaTech offers high quality, safe and reliable medical products with affordable prices.

Our team

We rely on a team of engineers and specialized technicians at the highest level of experience and efficiency, in addition to, the management team in all our branches who represents the motor nerve from which we obtain our success and our superiority. Therefore, we always strive to take a good care of providing a better environment for our teamwork that allows creativity and dedication to work.

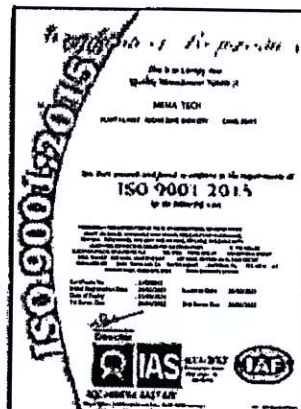

Uniqueness of our products:

Quality based products Manufacturing.

Affordable price.

After sales service.

Quality Assure

Anaesthesia / Breathing Circuits

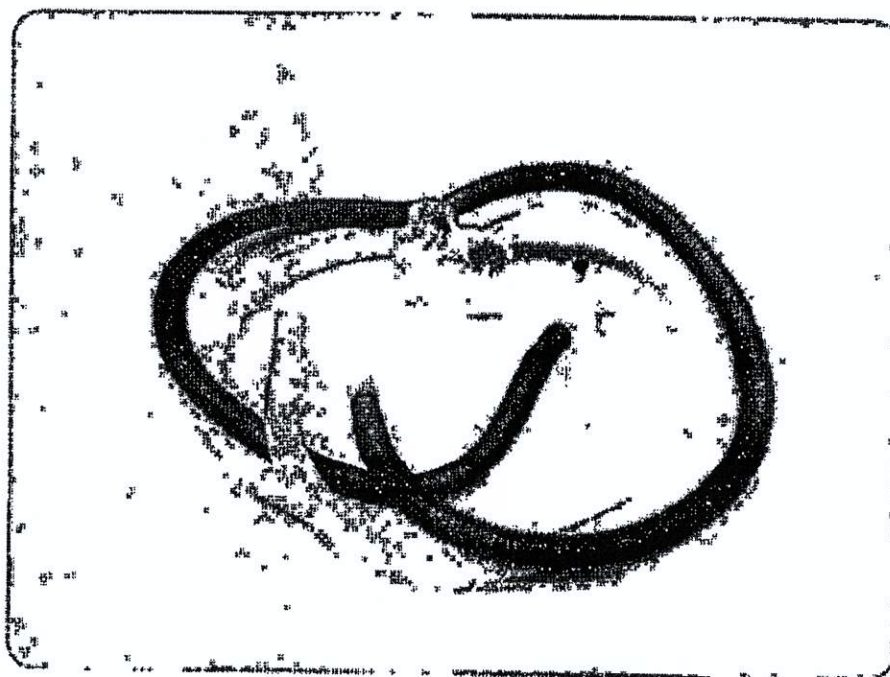

• They are the tubes that carry the oxygen from the ventilator machine to the patients, and these products are in bad needs now because of COVID-19, which all Patients need Ventilators machines, therefore all of them need breathing circuits which are disposable to control the infections.

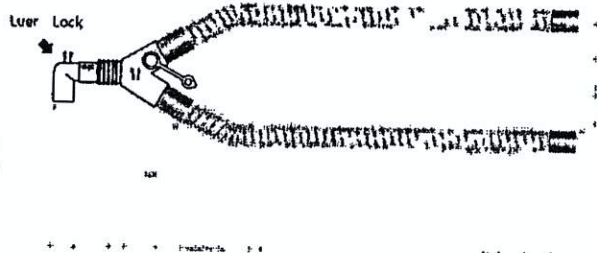

• The breathing circuits consist of tubes that represent the main part, and other parts like connectors and oxygen facemask.

• When the need arises for a lightweight and economic system, the material of polyethylene (PE) breathing circuit is the solution. The system's lightweight is very important because it reduces the risk of trauma to the patient resulting from the weight of the circuit pulling on the patient connections.

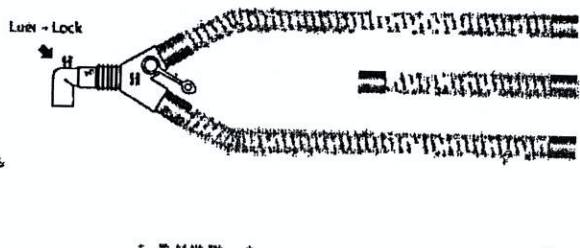

• These circuits are made of corrugated polyethylene; the connectors are directly welded to the tube to ensure gas tight connections and prevent leakage.

• Various standard configurations are available for anaesthesia; CPAP and IPPB; others can be made to order. Polyethylene circuits are available in 22 mm, 15 mm, and 10 mm diameter.

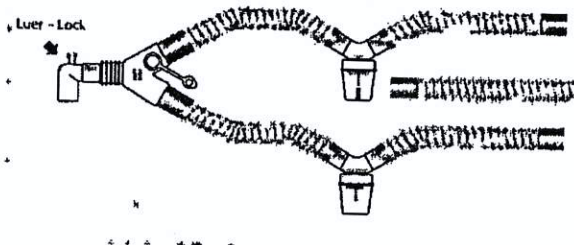

Breathing & Anaesthesia Circuits

Triball - Breathing Exercises System

Technical Properties

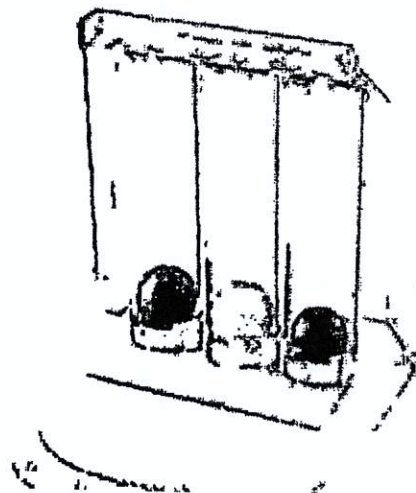

%97 CALIBRATION.

With the specially developed intermediary connector part measurement is made with 97% precision.

Each Product is tested for precision calibration.

The device consists of three graduated cylinders for indicating flow rate.

Different coloured balls in the cylinders indicate the approximate flow passing through the device.

Disposable Rebreathing Bags

- Natural Rubber " latex-free " , Disposable bags.
- Bag materials are non-slip, non-permeable and do not absorb or adsorb the gases.
- The neck of the reservoir is connected to the breathing system using two female conical fitting connectors having internal diameter 15 mm and 22 mm.

Size

0.5 Liter

1 Liter

2 Liter

3 Liter

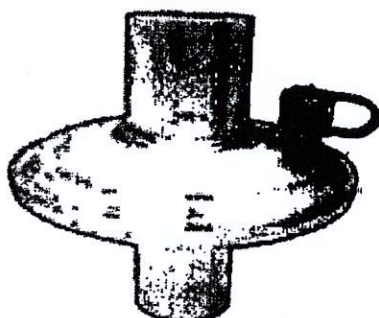

Bacterial Filter

The filter media is made of permanently charged hydrophobic fibers that help enhance viral and bacterial particle capture efficiency and give a low and stable breathing resistance even when wet.

All materials are selected to be environmentally friendly when incinerated. The bacterial filtration efficiency filters and viral filtration efficiency filters are designed with standard ISO fittings to help facilitate connection to different ventilators and anesthesia systems.

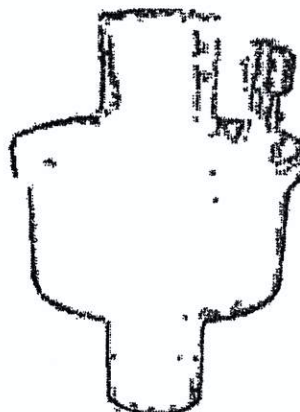

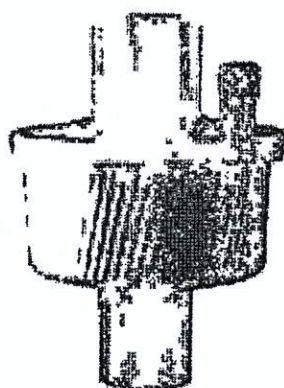

The viral and bacterial filtration and efficiency filters are top of the line.

The viral filtration efficiency filters and bacterial filtration efficiency filters are available with or without CO₂ sampling.

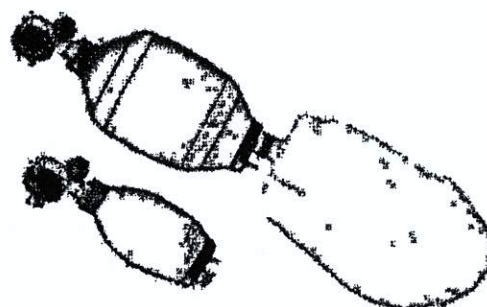

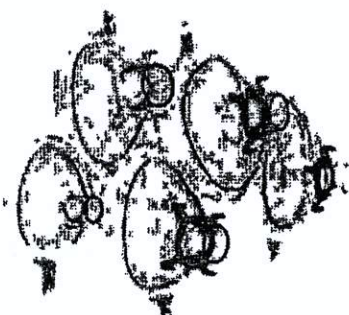

Heat and Moisture Exchangers (HME)

- High return of heat and moisture.
- Reduce condensation in the breathing circuit.
- Minimal workload and low cost.
- Sampling connector with tethered cap.
- Sampling port in convenient 45° angle.
- Transparent housing for visual control.
- Standardized connectors for safe connection to other components.

Disposable Manual Artificial Resuscitation Bags

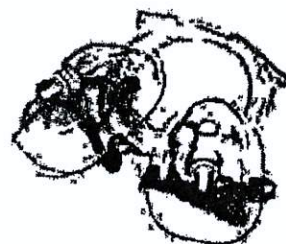

Manual resuscitator (PVC). (including silicone bag, PSF reservoir valve set, PSF intake valve set, PVC mask, 2mt. oxygen tubing, PVC (reservoir bag, 60cm H₂O pop off.)

Oxygen Mask

Elegant Series, Eco Series

- Designed for improving anatomical fit for convenient use, provided with nose clip for (Delicate Series) and without nose clip for (ECO Series), provided with adjustable strap.
- Star lumen (kink resistance) oxygen tubing with soft connectors, easy to connect to any oxygen source.
- Made of Italian soft medical PVC material.
- Color Availability: Green transparent, white, yellowish and bluish.
- Tubing Length: Different length can be customized.
- Packing: Packed in individual pack, 100 Pcs / Carton.
- Sizes Available: Adult (L) Pediatric (M) Infant (S)

Kids Friendly Series

- A good tool for kids who need breathing treatments, it makes the mask less scary, designed for improving comfortable fit for convenient use, provided with adjustable strap.
- Star lumen (kink resistance) oxygen tubing with soft connectors, easy to connect to any oxygen source.
- Made of Italian soft medical PVC material.
- Color Availability: Green transparent, white, yellowish and bluish.
- Tubing Length: Different length can be customized.
- Packing: Packed in individual pack, 100 Pcs / Carton
- Sizes Available: Pediatric (M)

Non Rebreathing Mask

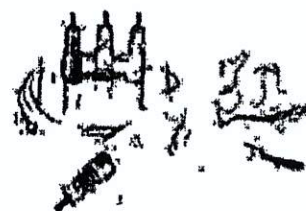

- Designed for improving anatomical fit for convenient use with reservoir bag with nose clip and adjustable strap.
- Star lumen (kink resistance) oxygen tubing with soft connectors, easy to connect to any oxygen source.
- Made of Italian soft medical PVC material.
- Color Availability: Green transparent, white, yellowish and bluish
- Tubing Length: Different length can be customized
- Sizes Available: Adult Elongated (XL) Adult (L) Pediatric (M)

Venturi Mask

With Corrugated Tube

- Venturi mask is used to deliver a known oxygen concentration to patients on controlled oxygen therapy.
- Oxygen concentration: %24 (Blue), %28 (Yellow), %31 (White), %35 (Green), %40 (Pink), %50 (Orange).
- Designed for improving anatomical fit for convenient use, provided with clip nose and adjustable strap. Made of Italian soft medical PVC material.
- Delivered with corrugated tube and O₂ connector.
- Star lumen (kink resistance) oxygen tubing with soft connectors, easy to connect to any oxygen source.
- Color Availability: Green transparent, white, yellowish and bluish.
- Sizes Available: Adult Elongated (XL) Adult (L) Pediatric (M)

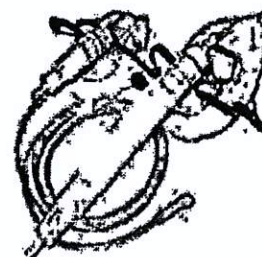

Without Corrugated Tube

- Venturi mask used to deliver a known oxygen concentration to patients on controlled oxygen therapy.
- Oxygen concentration: %24 (Blue), %28 (Yellow), %31 (White), %35 (Green), %40 (Pink), %50 (Orange).
- Designed for improving anatomical fit for convenient use, provided with clip nose and adjustable strap.
- Star lumen (kink resistance) oxygen tubing with soft connectors, easy to connect to any oxygen source.
- Made of Italian soft medical PVC material.
- Color Availability: Green transparent, white, yellowish and bluish.
- Sizes Available: Adult Elongated (XL) Adult (L) Pediatric (M)

Fixed Volume 40% Mask

- Designed for improving anatomical fit for convenient use, provided with clip nose and adjustable strap.
- Delivered with fixed oxygen concentration %40 (Pink)
- Star lumen (kink resistance) oxygen tubing with soft connectors, easy to connect to any oxygen source.
- Made of Italian soft medical PVC material.
- Color Availability: Green transparent, white, yellowish and bluish.
- Tubing Length: Different length can be customized.
- Packing: Packed in individual pack, 100 Pcs / Carton.
- Sizes Available: Adult Elongated (XL) Adult (L) Pediatric (M)

Nasal Cannula

- Designed to provide maximum freedom to patient by leaving mouth free.
- Twin soft curved or straight prong designed for improving anatomical fit and provides smooth flow of oxygen.
- Star Lumen (kink resistance) oxygen tubing with soft connector, easy to connect to any oxygen source.
- Made of Italian soft medical PVC material.
- Color Availability: Green transparent, white, yellowish and bluish.
- Tubing Length: Different lengths can be customized.
- Sizes Available: Adult (L) Pediatric (M) Neonatal (XS)

Nebulizer Mask

Luxury Series

- The nebulizer break up medical solutions and suspensions into small aerosol droplets that can be directly inhaled from the mouth piece or the nebulizer mask.
- Designed for improving anatomical fit for convenient use, provided with nose clip and adjustable strap.
- Star lumen (kink resistance) oxygen tubing with soft connectors, easy to connect to any oxygen source.
- Made of Italian soft medical PVC material.
- Color Availability: Green transparent, white, yellowish and bluish.
- Tubing Length: Different lengths can be customized.
- Sizes Available: Adult, Elongated (XL) Pediatric (M) Infant (S)

Elegant Series, Eco Series

- The nebulizer break up medical solutions and suspensions into small aerosol droplets that can be directly inhaled from the mouth piece or the nebulizer mask.
- Designed for improving anatomical fit for convenient use, provided with nose clip and adjustable strap.
- Star lumen (kink resistance) oxygen tubing with soft connectors, easy to connect to any oxygen source.
- Made of Italian soft medical PVC material.
- Color Availability: Green transparent, white, yellowish and bluish.
- Tubing Length: Different length can be customized.
- Sizes Available: Adult (L) Pediatric (M) Infant (S)

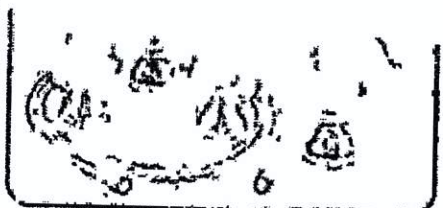

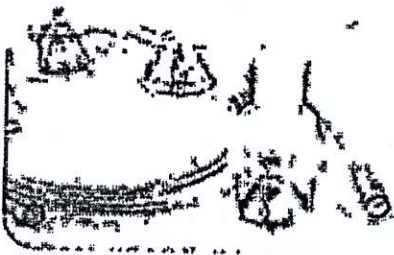

Kids Friendly Series

- A good tool for kids who need breathing treatments, it makes the mask less scary, designed for improving comfortable fit for convenient use, provided with adjustable strap.
- The nebulizer break up medical solutions and suspensions into small aerosol droplets that can be directly inhaled from the mouth piece or the nebulizer mask.
- Star lumen (kink resistance) oxygen tubing with soft connectors, easy to connect to any oxygen source.
- Made of Italian soft medical PVC material.
- Color Availability: Green transparent, white, yellowish and bluish.
- Tubing Length: Different length can be customized.
- Sizes Available: Pediatric (M)

Nebulizer Mouth Piece Kit

- Star lumen (kink resistance) oxygen tubing with soft connectors, easy to connect to any oxygen source.
- Made of Italian soft medical PVC material.
- Color Availability: Green transparent, white, yellowish and bluish.
- Tubing Length: Different lengths can be customized.
- Provided in many types:
 - Nebulizer jar, T-piece, mouth piece, corrugated tube and oxygen tube.
 - Nebulizer jar, T-piece, mouth piece and oxygen tube.
 - Nebulizer jar, mouth piece and oxygen tube.

Anesthesia Mask

- Designed for improving anatomical fit for convenient use with inflatable air cushion and high quality non-return valve that cover both the mouth and nose of the patient.
- Color Availability: Transparent (with color code)
- Sizes Available: 1,2,3,4,5

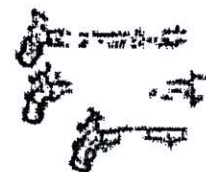

Nebulizer T Adapter with valve for CPAP

- Nebulizer «T» adapter with valve designed for convenient use with Flow Safe CPAP and other devices requiring of adapters, allows a Nebulizer to be added in-line between the CPAP device and the Patient's mask.
 - Adult size provided in (22F/18F/22M)
 - Pediatric size provided (15F/18F/15M)
 - Color Availability: Natural transparent.
- AEROSOL THERAPY**

Catheter Mount

- Catheter mount designed for convenient use to be compatible with all Breathing and Ventilator circuits.
- Catheter Mounts is connected between the patient and the breathing system.
- Provided with flexible corrugated tube fixed elbow 22M/15F – luer cap port for connection of all standard probes or suctioning.
- Color Availability: Natural transparent or can be customized.

T – Piece

- Designed for convenient use with breathing system to provide easy nebulization without stop ventilation process.
- Oxygen T-Piece (oxygen Recovery Kit)
- Designed for convenient use, provided with diluter %40, corrugated tube and T-piece (22F/22M15-F/22F) for connection of all standard devices.
- Color Availability: Natural transparent.
